

Swine Genetics Internship Opportunity II

Topigs Norsvin, the world's most innovative swine genetics company is seeking a talented undergraduate or graduate student with an interest in animal breeding and genetics to participate in a paid 6-week internship program for the summer of 2019. During the internship experience, based primarily at the Topigs Norsvin USA headquarters in Burnsville, MN, the student will work with members of the Topigs Norsvin R&D staff in project data collection and input/analysis of data from customer farms or research farms. The internship will include intercompany experience in the areas of Accounting, Sales, and Technical Support. This is an excellent opportunity to develop business, communication, and collaborative skills while establishing a network of industry professionals.

Responsibilities:

- Genetic data collection duties under the supervision of Topigs Norsvin personnel
- Genetic data management duties under the supervision on Topigs Norsvin personnel
- Assist support departments under the supervision of Topigs Norsvin personnel

Qualifications:

- Undergraduate or graduate student pursuing a degree in Genetics, Animal Science, or related field
- Eligibility to work in the U.S.
- Prior swine experience preferred but not required
- Excellent written and verbal communication skills
- Ability to work independently and in a team environment
- Detail-oriented
- Able to adapt within a sometimes fast-paced environment

Schedule and Compensation:

- Competitive hourly wage

To apply for this position, please submit a resume or CV, cover letter, unofficial transcript, and one letter of support from an academic or professional contact by Feb. 15, 2019 to:

Jenelle Dunkelberger at jenelle.dunkelberger@topignorsvin.us
